

Interpreting

A seamless process, facilitated by our sophisticated call centre, will realise your service request.

Short Notice - Unplanned events nationwide

An unscheduled appointment offers little lead time but our unique service is primed to respond. Working extensively in legal health, and social care settings we can provide timely support. With unrivalled flexibility we can cover your unexpected meeting, conference or interview needs.

Emergency - Rapid response out of hours

Dealing with life critical events where communication is vital, our on call system provides an invaluable access tool.

Often working with statutory agencies, we operate nationwide and are able to respond to police, social services and A & E requests during unsociable hours.

Contract - Volume based, inclusive cost

A fixed cost solution to your needs, providing a predetermined level and range of services. Capable of dealing with regular clients or employees who are deaf, we can negotiate an inclusive package.
